

# FLYING

**Leonardo da Vinci** was a famous artist and engineer.

He lived in Italy.

He invented some very interesting machines.

His FLYING MACHINE had wings like a bird and pedals like a bicycle.

The brothers Wilbur and Orville Wright wanted to fly.

They lived in Ohio and ran a small bicycle factory.

They made experiments with gliders.

They tied a glider to a horse which pulled it.

After some time, they built the first plane with a petrol engine.

They called it Flyer.

It had wings and two propellers.

The pilot sat out in front in the open air.

In 1903, Wilbur Wright made the first airplane flight in history.

# Lesson 7

The brothers Wilbur and Orville Wright wanted to fly.

They lived in Ohio and ran a small bicycle factory.

They made experiments with gliders.

They tied a glider to a horse which pulled it.

After some time they built the first plane with a petrol engine.

They called it Flyer.

It had wings and two propellers.

The pilot sat out in front in the open air.

In 1903, Wilbur Wright made the first airplane flight in history.

wanted – su željeli  
fly – letjeti  
lived – su živjeli  
they made – oni su radili  
experiments – eksperimente  
gliders – jedrilica (letjelica bez motora)  
they tied– oni su zavezali  
horse– konj

pulled – je vukao  
after some time – nakon nekog vremena  
built – su sagradili  
plane- avion  
petrol engine- benzinski motor  
wings –krila  
propellers- propeleri  
flight - let
